

**Maxi-Phi**  
the natural growth catalyst

## Activate MP

A unique multi-mineral formulation containing magnesium phosphonate, essential amino acids, auxins, betaines, & a range of organic chelating agents.

### Key Features of Activate MP

- A unique stabilized and balanced formulation
- Complimentary action of Magnesium and Phosphite
- The unique Maxi-Phi carrier system promotes uptake
- Nitrate free formulation – no autumn restrictions

### Key Benefits of Activate MP

- Crop vigor and immunity enhanced
- Replaces seed bed phosphate part of a nutrition strategy
- Micro nutrient uptake is enhanced
- No tank mixing restrictions

### Statutory declaration:

NPK: 0 - 12.6 - 0 + 3.8 %MgO

	% W/W
Amount of Magnesium Oxide soluble in water	3.8(MgO)
Amount of Phosphorous Pentoxide soluble in water	12.6(P <sub>2</sub> O <sub>5</sub> )

### APPLICATION RATES

Soil placement - 2 to 4 litres per hectare, dependent on crop & soil conditions.

Post-emergent crops - 2 to 4 litres per hectare, dependent on canopy, root mass & growth stage.

Foliar - 0.5 to 1.5 litres per hectare, dependent on crop, variety & nutritional status.
