

Maxi-Phi
the natural growth catalyst

Maxi-Phi Zinc

A unique nitrogen-free liquid formulation containing Zinc Sulphate as well as essential amino acids, auxins, betaines, & a range of organic chelating agents.

Key features of Maxi-Phi Zinc

- The unique Maxi-Phi carrier system promotes active uptake
- No tank mixing restrictions
- Flexible dose rates
- Rapid crop response
- Nitrate free formulation – no autumn restrictions

Key benefits

- Improved crop vigour
- Establishment and development enhanced
- No post application scorch

Statutory declaration:

Zinc Sulphate fertiliser solution	% W/W
Amount of Zinc soluble in water	9.0 (Zn)
Amount of Sulphur Trioxide soluble in water	11.0 (SO ₃)

% are expressed in weight / weight.

APPLICATION RATES

Use 0.5 - 5 litres per hectare in 100 -200 litres of water depending on crop requirements.
